Tobacco Elimination Course

This course, located on Blackboard, will help prepare students to talk to patients seen in the clinic to assist them with eliminating tobacco use. Students are required to complete the pre-test, required course components, and the post-test. Students will earn an additional 2 points to be added to their final grade calculation if they complete the requirements for the course. Students must pass the post-test to get the points. The passing score for the post test is getting 75% (9 out of 12) of the clinical knowledge questions.

Required course components:

- Pre-test
- Four (4) indicated PowerPoint presentations
- Discussion Board: post two entries, respond to one entry
- Post-test (must answer 9 out of 12 medical knowledge questions correctly to pass)

**Note on Required Cases and Patient Logs**

Students are required to see certain cases in clinic (see Required Cases sheet). Students must log these cases using patients seen in clinic into the "PX/DX" section of E*Value (see “E*Value & Design-A-Case” information sheet). If you do not see a case in clinic, you may be able to use Design-A-Case (all cases highlighted in yellow on the "Required Cases" list are available in Design-A-Case).

---

**What to do if:**

- **You become ill** – Call and e-mail Selina Ortiz at the Clerkship Office
- **An emergency arises or you will be late to clinic** – Call the Clerkship Office.
- **If you are released from or need to leave clinic during normal operation hours** – Call Dr. Kumar/Clerkship Office.
- **If you are ill more than one day** – You must be evaluated by a physician and a written excuse must be provided prior to returning to clerkship activities.
- **If you are out more than three days** – You will be required to make up one week in the clerkship.
